Technology at work for you

CONNECTING EVENTS TO CUSTOMERS

Innovative Operations Technology LLC Ticketing platform is a cloud based ticket system and activity booking solution that enables businesses to manage their day to day operations. The system offers both online booking management and payment portals as well as in person kiosks. A fully customizable system allowing the user full control of each event, seat, and price per ticket. Innovative Operations Technology strives to offer solutions to aid in productivity, reduce overall costs, and increase safety throughout all products by working closely with their customers to deliver targeted industry solutions.

Innovative Operations Technology LLC Ticketing Platform is perfect for Scenic Railroads and other activity centers.

- Cash Drawer Recording
- Event records
- Online sales ability
- Total event customization
- Barcode ticket consumption

Flexible solutions for your business needs

IOT Ticketing Event Designer

This is an easy-to-use state of the art program that allows the user to configure, expand and define each event. This program will allow for easy initial startup and event modifications. Track financial and ridership data.
